

2021 Cabernet Sauvignon

Stylistic Notes

Our West Bench vineyard in Osoyoos is planted exclusively to this varietal. The vines are east-facing, having grown their roots deep within the sandy gravel filled soils. The addition of granite within the vineyard aids this grape in ripening to its fullest potential. The wine is a bold and opulent drinking experience, and has the making to age for many years to come. Fermented in stainless steel, this wine underwent 3 pump-overs daily before being left to develop in 50% new American oak for 19 months.
